Description of Action Taken:

A) It is unknown what is causing the high particle reads. The air units were checked and calibrated. No deficiencies were found during inspection.

((Yes) or No)

- B) Current construction with the dike project has increased semitruck traffic on the site delivering building materials. Although dust control measures are in place to spray the roads with water occasionally areas dry up allowing dust from traffic.
- C) Air units are checked and calibrated once a week.
